

Full line  
of dedicated  
reagents  
for automated  
cell-counters

## Hematology Reagents

- Cyanide-free
- 4 years shelf life\*
- Compatible with original

Norma develops, manufactures and markets a complete range of dedicated reagent sets for 3-part and 5-part differential hematology analyzers. Norma reagents do not only replace the original, supplied by the instrument's manufacturer, but they are in most cases superior in terms of performance, stability and shelf life.

Norma hematology reagents are manufactured in an ISO 13485 certified facility, they are CE marked and meet the requirements of the IVD Directive 98/97/EC.

Norma offers dedicated reagents for the following cell-counter brands:

- Abbott Cell-Dyn
- ABX, Horiba
- Coulter, Beckman Coulter
- Mindray
- Siemens, Bayer
- Sysmex, TOA Sysmex
- Nihon Kohden
- Orphée
- Diatron
